DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

Claims 4 and 10-12 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for agarose chelated with nickel, does not reasonably provide enablement for a broad “chelated media” as recited in claims 4 and 10. As stated in the last office action, the specification does not disclose a method for chelating a chromatography media with a metal, but rather in the working examples, it shows a commercially available nickel-chelated agarose being used as chromatography media in their product, i.e. the

Chromatography media pellet. Therefore, the only support the instant disclosure provides as far as the media is concern is nickel-chelated agarose, or in other words, agarose having been chelated with with nickel. Applicant’s amendment which further broadens claims to just chelated metal fails to correct the enabling problem. Claims 4 and 10, which now broadly recite the feature chelated media (claim 4) or the step of chelating media (claim 10), are deemed broader than the enabling scope of the disclosure. It’s suggested that the limitation of claims 11 and 12 be added to claims 10 and 4, respectively, to obviate this rejection. Claims 11 and 12 are rejected in view of their dependency on claim 10 and 4, respectively.

Allowable Subject Matter

2. Claims 2, 3 and 5-9 are allowed. The reasons for indicating allowable subject matter of these claims have been stated in the last office action.

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
